About Me

I am a passionate and detail-oriented Junior Fullstack Developer with a strong foundation in both front-end and back-end technologies. I have hands-on experience working with HTML, CSS, JavaScript, and frameworks like Angular, React, NextJS, ASP.NET and .NET Core as well as database management using MSSQL, PostgreSQL and MongoDB. Eager to continuously learn and improve, I thrive in collaborative environments and enjoy solving complex problems to deliver efficient, scalable, and user-friendly web applications. I am excited to contribute to innovative projects while developing my skills as part of a dynamic development team.

Skills

- Frontend Development (Angular, React, NextJS)
- Backend Development (ASP.NET, Node.js)
- Desktop App Development (.NET Core, WPF)
- Ethical hacking
- Kali Linux
- MSSQL
